

Dyad Track

TRACKS AND ACCESSORIES | PI-LED SERIES

Dyad Track provides an ultra-wide light distribution which makes it highly suitable for meeting rooms, individual offices and open spaces.

Providing light on its superior side, Dyad Track creates a mellow ambient in the working space by projecting the light beam towards the ceiling.

On the lower side of the track a wide range of spotlights and linear luminaires can be mounted.

Dyad Track is highly suitable for spaces with large horizontal, reflective surfaces. Any other type of luminaire would only reflect on the working plan. By emitting light upward, toward the ceiling, Dyad Track

PI-LED - Combines variable white light and light of the RGB color system in one single light source. It can vary the color temperature between 2700K - 6500K along Planckian curve in the course of a day.

- Dyad Track is available in the ECO series – with DALI controls for dimming.
- Dyad Track PI-LED - the even hormone balance, biorhythm and enhances wellbeing and vitality.

FEATURES & BENEFITS

- CRI 90 as standard
- Color temperature: PI-LED
- Long rated life: L70/B10@50,000h
- Luminaire efficiency: 35 lm/w @4000K
- Extra wide beam: 130°

APPLICATION

Office | Receptions & Entrances | Open Spaces | Meeting Rooms

RISK GROUP**RG0**

The evaluation of photobiological safety is carried out according to the standard IEC 62471:2008 ("Photobiological safety of lamps and lamp systems"). Following the definition of the risk grouping system of the mentioned IEC standard, the LEDs mounted on this family fall into the class "No Risk (RG0 – No photobiological hazard)". Under real circumstances (regarding exposure time, pupils, observation distance, it is assumed that there is no endangerment to the eye from these devices. As a matter of principle, however, it should be mentioned that intense light sources have a high secondary exposure potential due to their blinding effect.
